

# Random Dungeon Roller

## 1. Periodic Table (roll if nothing else is applicable)

|       |                                                                                             |
|-------|---------------------------------------------------------------------------------------------|
| 1—3   | Chamber. Check this table again after 30ft                                                  |
| 4     | Continue straight. Check this table again after 50ft                                        |
| 5     | Dead end. There's a 1—5 (d20) chance for a secret door each wall                            |
| 6—10  | Side passage. Check this table after 30ft.                                                  |
| 11—14 | Door. Check for door direction, if it isn't straight ahead then check this table after 30ft |
| 15    | Stairs                                                                                      |
| 16—19 | Turn. Check this table again after 30ft                                                     |
| 20    | Wandering monster. Re-roll this table for what's further                                    |

## 2. Doors

| Door Position |       | Beyond Door |                                                                                    |
|---------------|-------|-------------|------------------------------------------------------------------------------------|
| 1—6           | Left  | 1—3         | Parallel passage, 30ft both directions. 10ft x 10ft room if door is straight ahead |
| 7—12          | Right | 4—8         | Straight passage                                                                   |
| 13—20         | Ahead | 9           | Passage 45 degrees left                                                            |
|               |       | 10          | Passage 45 degrees right                                                           |
|               |       | 11—18       | Room                                                                               |
|               |       | 19—20       | Chamber                                                                            |

## 3. Side Passages

|       |                                                                                                     |
|-------|-----------------------------------------------------------------------------------------------------|
| 1—4   | Left 90 degrees                                                                                     |
| 5—8   | Right 90 degrees                                                                                    |
| 9     | Left 45 degrees (50% ahead, if not then behind)                                                     |
| 10    | Right 45 degrees (50% ahead, if not then behind)                                                    |
| 11—13 | "T" passage                                                                                         |
| 14—15 | "Y" passage                                                                                         |
| 16—19 | Four way intersection                                                                               |
| 20    | Five way intersection. Usually two passages along the X-axis, two along the Y-axis and one diagonal |

## 4. Passage Width

| Normal Widths |         | Special Widths |                                   |
|---------------|---------|----------------|-----------------------------------|
| 1             | 5ft     | 1—7            | 40ft*                             |
| 2—13          | 10ft    | 8—12           | 50ft*                             |
| 14—17         | 20ft    | 13—15          | Stream** and re-roll to get width |
| 18            | 30ft    | 16—19          | River*** and re-roll to get width |
| 19—20         | Special | 20             | Chasm****                         |

\* 50% chance for a double row, if so then a 10% chance for chance the columns support a balcony or gallery above.

\*\* Stream bisects the passage; 75% chance it is bridged.

\*\*\* River bisects the passage. 50% chance it is bridged or 25% chance there's a boat (50% chance it is at the player's side.

\*\*\*\* Chasm bisects the passage and is a long sheer drop (usually 100ft). 50% chance it's bridged or 25% chance it has a narrow spot suitable for jumping across.

## 5. Passage turns

|       |                                                  |
|-------|--------------------------------------------------|
| 1—9   | Left, 90 degrees                                 |
| 10    | Left 45 degrees (50% ahead, if not then behind)  |
| 11—19 | Right, 90 degrees                                |
| 20    | Right 45 degrees (50% ahead, if not then behind) |

## 6.1. Rooms and Chambers

|       | Room        | Chamber     |
|-------|-------------|-------------|
| 1     | 10ft x 10ft | 20ft x 20ft |
| 2—4   | 20ft x 20ft | 20ft x 20ft |
| 5—7   | 30ft x 30ft | 30ft x 30ft |
| 8—10  | 40ft x 40ft | 40ft x 40ft |
| 11    | 10ft x 20ft | 20ft x 30ft |
| 12—13 | 20ft x 30ft | 20ft x 40ft |
| 14—15 | 20ft x 40ft | 40ft x 50ft |
| 16—18 | 30ft x 40ft | 40ft x 60ft |
| 19—20 | Special     | Special     |

## 6.2. Special Room and Chamber

| Shape             | Area                                                                          |
|-------------------|-------------------------------------------------------------------------------|
| 1 Cave            | 1—3 500 sq ft                                                                 |
| 2—6 Circular*     | 4—6 1.000 sq ft                                                               |
| 7—8 Hexagonal     | 7—8 1.500 sq ft                                                               |
| 9—10 Octagonal    | 9—10 2.500 sq ft                                                              |
| 11—12 Oval        | 11—12 3.250 sq ft                                                             |
| 13—14 Special**   | 13—15 4.000 sq ft                                                             |
| 15—17 Trapezoidal | 16—19 5.000 sq ft                                                             |
| 18—20 Triangular  | 20 Re-roll and add result to a cumulative 1.000 sq ft each time you roll a 20 |

\* 1—6 room has a pool, 7 room has a well, 8—11 room has a shaft, 12—20 just proceed to area (d20).

\*\* Referee's discretion.

## 7. Number of Exits

|       | Area   | # Exits | Area   | # Exits |
|-------|--------|---------|--------|---------|
| 1—4   | <500   | 1       | >500   | 2       |
| 5—7   | <500   | 2       | >500   | 3       |
| 8—9   | <500   | 3       | >500   | 4       |
| 10—12 | <1.000 | 0*      | >1.000 | 1       |
| 11—15 | <1.500 | 0*      | >1.000 | 1       |
| 16—19 | Any    | 1d4     | Any    | 1d4     |
| 20    | Any    | 1**     | Any    | 1**     |

\* 25% chance of secret door if connected to pre-existent room, otherwise is a dead end.

\*\* Switch things around, exit of room is a passage, while exit of chamber is a door.

*Keep in mind, rooms have doors, chambers have passages!*

## 8. Exit Location, if door\*

|       |               |
|-------|---------------|
| 1—4   | Left wall     |
| 5—12  | Right wall    |
| 13—16 | Opposite wall |
| 17—20 | Same wall     |

\* If a passage would go into a room already mapped then 1—10 chance it moves to opposite wall, 11—15 it becomes a secret door, 16—20 it becomes a one-way door (d20).

## 9. Door situation

|       |                    |
|-------|--------------------|
| 1     | Locked and trapped |
| 2—3   | Trapped            |
| 4—6   | Locked             |
| 7—10  | Stuck              |
| 11—20 | Open               |

## 10. Exit Direction, if passage

|       |                   |
|-------|-------------------|
| 1—16  | Straight forward  |
| 17—18 | Left 45 degrees*  |
| 19—20 | Right 45 degrees* |

\* If the direction isn't possible for the passageway to bend, then bend it the other way.

## 11. Room contents

|       |                                     |
|-------|-------------------------------------|
| 1—7   | Empty                               |
| 8—11  | Monster only                        |
| 12—17 | Monster and treasure                |
| 18    | Special* or Stairs                  |
| 19    | 50% chance Trick, if not then trap. |
| 20    | Treasure only                       |

\* Referee's discretion as to what is contained in the room. Perhaps a trap, or a trick would do?

## 12. Treasure\*

|         |                                  |
|---------|----------------------------------|
| 1%—25%  | 2d12 x 100 copper pieces /level  |
| 26%—50% | 2d10 x 100 silver pieces /level  |
| 51%—65% | 2d8 x 100 electrum pieces /level |
| 66%—80% | 1d6 x 100 gold pieces /level     |
| 81%—90% | 1d4 x 10 platinum pieces /level  |
| 91%—95% | 1d4 gems /level                  |
| 96%—99% | 1 jewelry /level                 |
| 100%    | 1 magic item /level              |

\* If guarded by a monster then roll an additional time for each level of the dungeon, add 10% to each roll.

## 13. Treasure container\*

|       |                  |
|-------|------------------|
| 1—2   | Bags             |
| 3—4   | Sacks            |
| 5—6   | Coffers          |
| 7—8   | Chests           |
| 9—10  | Large chests     |
| 11—12 | Pottery jars     |
| 13—14 | Metal urns       |
| 15—16 | Stone containers |
| 17—18 | Iron trunks      |
| 19—20 | None, loose      |

\* 50% chance treasure is guarded or has a ward, another 50% it might be hidden.

## 14. Treasure guards and wards

|      |                                                     |
|------|-----------------------------------------------------|
| 1—2  | Blade scything across inside                        |
| 3—4  | Contact poison on container                         |
| 5—6  | Contact poison on treasure                          |
| 7    | Gas released by opening container                   |
| 8    | Explosive runes                                     |
| 9—10 | Poisoned needles in lock                            |
| 11   | Poisoned needles in handles                         |
| 12   | Poisoned insect or reptile living inside container  |
| 13   | Spears released from walls when container is opened |
| 14   | Spring darts firing from front of container         |
| 15   | Spring darts firing from on top of container        |
| 16   | Spring darts firing from inside of container        |
| 17   | Stone block falling on container                    |
| 18   | Symbol                                              |
| 19   | Trapdoor opening in front of container              |
| 20   | Trapdoor opening 6ft in front of container          |

## 15. Treasure hidden by or in

|       |                                        |
|-------|----------------------------------------|
| 1—2   | Behind loose wall stone                |
| 3—4   | Illusion to change it's appearance     |
| 5—7   | Invisibility                           |
| 8—11  | In nearby secret room                  |
| 12    | In an ordinary container in plain view |
| 13    | Inside or under trash or heap/dung     |
| 14    | Non—magically disguised                |
| 15    | Secret space under container           |
| 16—17 | Secret compartment under container     |
| 18—20 | Under a loose flooring stone           |

## 16. Stairs

|       |                                                             |
|-------|-------------------------------------------------------------|
| 1—5   | Down 1 level                                                |
| 6     | Down 2 levels                                               |
| 7     | Down 3 levels                                               |
| 8—9   | Up 1 level                                                  |
| 10    | Up to a dead end                                            |
| 11    | Down to a dead end                                          |
| 12    | Chimney up 1 level, passage continues, check after 30ft     |
| 13    | Chimney up 2 levels, passage continues, check after 30ft    |
| 14    | Chimney down 2 levels, passage continues, check after 30ft  |
| 15—16 | Trapdoor down 1 level, passage continues, check after 30ft  |
| 17    | Trapdoor down 2 levels, passage continues, check after 30ft |
| 18—20 | Down 1 level into chamber                                   |

## 17. Traps

|        |                                                  |
|--------|--------------------------------------------------|
| 1—2    | Acid, spray                                      |
| 3—4    | Bolt, crossbow                                   |
| 5—6    | Bridge, collapsing                               |
| 7—8    | Bridge, illusory                                 |
| 9—10   | Caltrops dropping from ceiling                   |
| 11—12  | Ceiling blocks drop behind players               |
| 13—14  | Ceiling blocks drop in front and behind players  |
| 15—16  | Ceiling blocks drop in front of players          |
| 17—18  | Ceiling blocks drop on players                   |
| 19—20  | Ceiling blocks seal players in room or area      |
| 21—22  | Elevator room                                    |
| 23—24  | Elevator room, deactivates for 24 hours          |
| 25—26  | Elevator room, one way                           |
| 27—28  | Falling door                                     |
| 29—30  | Flaming jets                                     |
| 31—32  | Flooding room                                    |
| 33—34  | Gas, blinding                                    |
| 35—36  | Gas, fear                                        |
| 37—38  | Gas, flammable                                   |
| 39—40  | Gas, sleep                                       |
| 41—42  | Gas, slowing                                     |
| 43—44  | Greased chute                                    |
| 45—46  | Lightning bolt                                   |
| 47—48  | Log trap, swinging                               |
| 49—50  | Obscuring fog                                    |
| 51—52  | Oil-filled pit with dropping lit torch           |
| 53—54  | Pit trap triggered by false door                 |
| 55—56  | Pit with dropping ceiling block                  |
| 57—58  | Pit with locking trapdoor                        |
| 59—60  | Pit, 10ft                                        |
| 61—62  | Poisoned bolt, crossbow                          |
| 63—64  | Poisoned caltrops                                |
| 65—66  | Poisoned spear, ballista                         |
| 67—68  | Poisoned spike pit                               |
| 69—70  | Portcullis drop behind players                   |
| 71—72  | Portcullises drop in front and behind players    |
| 73—74  | Portcullis drop in front of players              |
| 75—76  | Rolling stone ball, height and width of corridor |
| 77—78  | Scything blade, ankle-high                       |
| 79—80  | Scything blade, neck-high                        |
| 81—82  | Sliding room changes facing or location          |
| 83—84  | Spear, ballista                                  |
| 85—86  | Spiked log trap                                  |
| 87—88  | Spiked pit                                       |
| 89—90  | Spring-loaded pile-driver disguised as door      |
| 91—92  | Stairs fold flat into a sliding chute            |
| 93—94  | Stairs collapse                                  |
| 95—96  | Teleporter                                       |
| 97—98  | Trip wire                                        |
| 99—100 | Wire, neck-high                                  |

## 18.1. Trick features

|       |                                                 |
|-------|-------------------------------------------------|
| 1—3   | Altar                                           |
| 4—6   | Arch                                            |
| 7—10  | Ceiling                                         |
| 11—13 | Container (jar, box, coffer, barrel, casket...) |
| 14—16 | Dome                                            |
| 17—20 | Door (secret, concealed, valve, arch...)        |
| 21—23 | Fire                                            |
| 24—26 | Fireplace                                       |
| 27—30 | Force field                                     |
| 31—33 | Fountain                                        |
| 34—36 | Furnishing                                      |
| 37—40 | Idol                                            |
| 41—43 | Illusion                                        |
| 44—46 | Machine                                         |
| 47—50 | Mirror                                          |
| 51—53 | Monster                                         |
| 54—56 | Mosaic                                          |
| 57—60 | Painting                                        |
| 61—63 | Passage                                         |
| 64—66 | Pedestal                                        |
| 67—70 | Pillar/Column                                   |
| 71—73 | Pit                                             |
| 74—76 | Pool                                            |
| 77—80 | Room                                            |
| 81—83 | Stairway                                        |
| 84—86 | Statue                                          |
| 87—90 | Tapestry                                        |
| 91—93 | Vegetation                                      |
| 94—96 | Wall                                            |
| 97—99 | Well                                            |
| 100   | Roll twice                                      |

## 18.2. Trick attributes

|    |                                       |    |                    |
|----|---------------------------------------|----|--------------------|
| 1  | Ages                                  | 51 | Increases DEX      |
| 2  | Animated                              | 52 | Increases INT      |
| 3  | Anti-Magic                            | 53 | Increases STR      |
| 4  | Appearing                             | 54 | Increases WIS      |
| 5  | Asks                                  | 55 | Intelligent        |
| 6  | Attacks                               | 56 | Invisible          |
| 7  | Changes class                         | 57 | Laughs             |
| 8  | Changes mind from one body to another | 58 | Magnetic           |
| 9  | Changes sex                           | 59 | Makes younger      |
| 10 | Collapsing                            | 60 | Moves              |
| 11 | Combination                           | 61 | Null gravity       |
| 12 | Dances                                | 62 | One way            |
| 13 | Decreases CHA                         | 63 | Opposite alignment |
| 14 | Decreases CON                         | 64 | Pivots             |
| 15 | Decreases DEX                         | 65 | Plays games        |
| 16 | Decreases INT                         | 66 | Points             |
| 17 | Decreases STR                         | 67 | Poison             |

|    |                                  |     |                                 |
|----|----------------------------------|-----|---------------------------------|
| 18 | Decreases WIS                    | 68  | Polymorphing                    |
| 19 | Directs                          | 69  | Random alignment                |
| 20 | Disappearing                     | 70  | Randomly acts                   |
| 21 | Disintegrates                    | 71  | Reduces                         |
| 22 | Dispenses coins                  | 72  | Repellent/Repulses              |
| 23 | Dispenses counterfeit coins      | 73  | Resists magic                   |

| 45 | Gravity decreased                | 95  | Talks, spell casting            |
| 46 | Gravity increased                | 96  | Teleports                       |
| 47 | Greed inducing                   | 97  | Unusual colour/texture/material |
| 48 | Hovers                           | 98  | Variable gravity                |
| 49 | Increases CHA                    | 99  | Wish fulfilment                 |
| 50 | Increases CON                    | 100 | Yells and screams               |

## 19. Caves

|       |                                                      |
|-------|------------------------------------------------------|
| 1—5   | Cave 40ft x 60ft                                     |
| 6—7   | Cave 50ft x 75ft                                     |
| 8—9   | Double cave, 30ft x 30ft and 60ft x 60ft             |
| 10—11 | Double cave, 30ft x 50ft and 80ft x 100ft, roll pool |
| 12—14 | Cavern 100ft x 125ft, roll pool                      |
| 15—16 | Cavern 125ft x 150ft                                 |
| 17—18 | Cavern 150ft x 200ft, roll pool                      |
| 19—20 | Cavern 400ft x 400ft, roll lake                      |

## 20. Pool

|       |                            |
|-------|----------------------------|
| 1—12  | No pool                    |
| 13—14 | Pool                       |
| 15—16 | Pool and monster           |
| 17—19 | Pool, monster and treasure |
| 20    | Magical pool               |

## 21. Lake

|       |                            |
|-------|----------------------------|
| 1—12  | No lake                    |
| 13—14 | Lake                       |
| 15—16 | Lake and monster           |
| 17—19 | Lake, monster and treasure |
| 20    | Enchanted lake*            |

\* They lead any who cross it to another dimension, special temple etc. If no such area is desired or prepared for the referee, treat it as a lake with a harder monster and double the treasure.

## 21. Lake\*

|       |                                                                                                                                                                                                                   |
|-------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1—8   | Pool turns gold into 1—12 platinum or 13—20 lead, only does it once then becomes non-magical (d20).                                                                                                               |
| 9—15  | Characters in pool either lose (1%—50%) or gain (51%—100%) 1 point from a random attribute: 1 STR, 2 DEX, 3 CON, 4 INT, 5 WIS, 6 CHA (d6).                                                                        |
| 16—17 | Talking pool, will grant 1 wish to any character of same alignment and damage to all others (1d20 damage); the wish must be used within 24 hours. Pool's alignment: 1—6 LG, 7—9 LE, 10—12 CG, 13—17 CE, 18—20 TN. |
| 18—20 | Transporter pool. 1—7 back to surface, 8—12 elsewhere on level, 13—16 1 level down, 17—20 many miles away for wilderness or outdoor adventure.                                                                    |

\* To learn the secrets of the pool, characters must stay within it.
